

## "Nix All Six"

### Vote Against All Six Constitutional Amendments

All six amendments are at best a **diversion** (and at worst a direct **obstacle**) to the **real issues** that our state faces (education, health care, and more) and the most important concerns of North Carolina voters.

Although some of the amendments may sound good, there's "more than meets the eye" and passing them is like **giving the legislature a "blank check"** to fill in important details.

The absence of titles or numbers for these amendments on the ballot makes it **hard for voters to understand and know how to vote**.

The "Victims Rights" and "Right to Hunt and Fish" amendments are **unnecessary**. Existing state laws already protect the rights of victims of crimes and people who hunt and fish.

The other four proposed amendments were passed by the General Assembly's Republican super majority in what many people see as **an attempt to increase their political power, limit voting rights, and increase Republican turn-out in the 2018 fall elections.**

The "Judicial Appointments" and "Ethics and Elections" amendments would **give the legislature unprecedented control over our elections; would let legislators handpick judges who would rubber stamp their agenda; and are opposed by all five living NC Governors and all six living NC Supreme Court Chief Justices** (Republicans and Democrats).

The "Voter ID" amendment would allow state legislators to **disenfranchise thousands of senior citizens, young people, poor people, people with disabilities, and people of color** who may find it difficult or impossible to obtain a government-approved photo ID.

The "Income Tax Cap" amendment would **shift more of the tax burden from wealthy individuals to middle class and working class taxpayers and the poor** in another financial recession.

*The Unitarian Universalist Justice Ministry of North Carolina*
